

WOMEN, ONE OFFICE

That's the Peculiar State of Affairs in Savannah.

COMMISSIONER NESBITT WRITES A CARD

And Explains How Such a State of Affairs Came About—Only One Salary.

There are two men, holding one office in Savannah.

That is, two men claim it, and the next legislature will decide which one will draw the salary, which goes to the rightful holder of it. The office is inspector of oils at Savannah, and the two gentlemen who claim that they hold it are Colonel Peter Reilly and Mr. O. T. Rogers.

It's quite a complicated case, and when it comes up will involve \$800 of inspector's salary.

On the 1st of October Commissioner Nesbitt, of the agricultural department, appointed Colonel Reilly as inspector, and he immediately qualified and went to work.

But Mr. Rogers demurred and said that he was inspector, his term not expiring until January 1st.

Commissioner Nesbitt was applied to and he instructed Mr. Reilly to go ahead with the duties of his office, which he did. But every gallon of oil that has been inspected in Savannah since that time, has gone through the hands of both of these gentlemen.

But only Mr. Reilly has received the salary. A special from Savannah telling of this peculiar state of affairs was printed in Sunday's CONSTITUTION.

It called for the following card from Commissioner Nesbitt explaining the matter:

Mr. Nesbitt's Card.

Editor CONSTITUTION.—By a special from Savannah in your issue of the 20th, the impression may be left that the Savannah oil inspection district has two inspectors "acting under instructions from the commissioner." This impression I desire to correct, and to state that the department of agriculture recognizes Colonel Peter Reilly as the only inspector for that district. In doing this I have no desire to contest any claim that Colonel Rogers may present to the legislature for compensation, but to have it understood that his inspections are voluntary, and not under the directions of this department.

Colonel Rogers contends that his term does not expire until the 1st of January, 1892, notwithstanding it appears on the records of the department that it expires on the 1st of October, 1891. It seems that during the administration of my predecessor some question or controversy arose as to the length of an oil inspector's term, to settle which the matter was submitted to the attorney general, his opinion rendered and recorded.

Under this record is an order from the commissioner citing that in accordance with the above decision the term of each oil inspector shall expire at the dates given, and placing the expiration of Colonel Rogers's term on the 1st of October 1891. Acting on this on the 1st of October I appointed Colonel Reilly inspector over Colonel Rogers's protest, for while anxious to do Colonel Rogers justice, the question whether the fees should go largely to the state or entirely to the individual, appointees receiving all, I did not feel that I could declare that my predecessor had committed an error, or that a clerical mistake was made.

Before Colonel Reilly qualified, Colonel Rogers pressed his claim to hold the office until the 1st of January. So, that in order to be sure that I was acting advisedly, I requested the opinion of the assistant attorney general, who sustained me in taking the face of the minutes as a basis of decision.

I have always contended that the compensation of inspectors, until the act of 1890 on the subject, was, in the large cities, in excess of the service rendered, and have endeavored, as soon as allowed under the law, to have the compensation governed by that act. To illustrate: The large amounts received by inspectors under the old law. Colonel Rogers received for services from the 1st to the 15th day of October, inclusive, pending a decision on the matter, and the qualifying and filing of the bond of his successor \$200 in fees, which is \$37.50 more than Colonel Reilly will receive for three months' service, it being an error in your issue in stating that he had received nothing.

Very respectfully, R. T. NESBITT.

THE WEEK OF PRAYER.

The Full Programme for That Interesting Series of Services.

The committee appointed by the evangelists at their last meeting to prepare a programme for the "week of prayer," met yesterday morning at the First Methodist Episcopal church. Drs. Heldt, Barnett, Sherrill, Williamson and Rev. Virgil Norcross were present. The meeting was opened with prayer by Dr. Williamson. Rev. T. P. Cleveland, who was invited to be present as secretary of the Ministers' association, was elected secretary of the committee.

It was determined that the meetings are to be held in the Christian church, on Hunter street, at 7:30 o'clock p. m., the music to be arranged by the pastor; the leaders shall be appointed for each service, who shall choose any others, ministers or laymen, whom they may desire to specially assist; the services to continue one hour, and prominence given in them to prayer.

Rev. Walker Lewis was chosen as leader for the first service, but declined on account of sickness, and Professor Lane, whom he suggested, was selected as the leader. The full programme, as furnished by Secretary Cleveland, with the name of the leader for each service, is given here:

TSOONG KIA-TSING.

An Interesting Visitor at the Home of Rev. Walker Lewis.

For several days Mr. Tsoong Kia-Tsing, a Chinese gentleman of rare culture, has been the guest of Rev. Walker Lewis.

This morning he will leave for Emory college, where he will take a finishing course, and there pursue the study of theology. He will spend three years there, after which he will return as a missionary to his people at Shanghai, China.

Mr. Tsoong is quite a remarkable young man. His father and grandfather are both Christians, the former being a minister and the latter editing The Advocate, a Christian paper for the Chinese. Mr. Tsoong is just from the Anglo-Chinese college at Shanghai, where he spent six years. He is highly cultured in ancient and modern lore, and speaks English with a fluency, distinctness and correctness of idiom that is surprising.

This goes to show what that famous institution is doing in the work for Christianity among the Chinese. Mr. Tsoong is quite polished and affable, and will doubtless make his mark at Emory college.

It is quite likely that the mission society of Trinity church will support Mr. Tsoong while at Oxford.

Crisp and Mills.

The fact that Mr. Watterson, of The Courier-Journal, has demanded that Speaker Crisp should reconsider his purpose and offer the chairmanship of the ways and means committee to Mr. Mills is deemed to be of sufficient importance to telegraph over the country. We believe that Mr. Watterson's demand is more interesting than important. Mr. Watterson is a very interesting man and there is a flavor of the picturesque about whatever he does.

This demand, for instance, is exceedingly picturesque. For weeks, Mr. Watterson has been silent. He has taken no part in the contest for speaker. He has kept altogether out of the discussion that has been going on. He has offered no advice, and has given no opinion. Suddenly, when everything is practically settled, he swoops down on Speaker Crisp and demands that he shall reconsider his action in regard to the ways and means committee.

All that there is to this demand is its exceeding picturesqueness. Speaker Crisp is not the agent of individuals, but of the democratic party. He was made speaker after a free discussion and full consultation among democrats; he was made the leader of the democratic party in congress after his purposes and his policy were thoroughly canvassed. There may be other matters behind it all, but our opinion, based on a knowledge of Mr. Crisp and his plans, is that but for Mr. Mills himself, Mr. Mills would have been offered the chairmanship of the ways and means committee. His actions at the organization of the house and his attitude since, have relieved Speaker Crisp of all the obligations that courtesy may have imposed on him. Regarding the matter purely on its merits, Mr. Crisp could scarcely have done otherwise than he has. Personalism, such as has been showing its head during the past year or two, has no proper place in the democratic party.

What is and has been the attitude of Mr. Mills? That is best described by a Washington correspondent who is on the spot—the correspondent of The New York World, which was in favor of Mills for speaker.

In regard to Mr. Mills, this may be accepted as certain—he will be appointed chairman of the committee on interstate and foreign commerce, if he shows a disposition to aid and not hamper the administration of Speaker Crisp. If he continues to sulk and create as much antagonism among other members as he can, it is difficult to tell where he will bring up. That is the exact situation in plain Anglo-Saxon at the present writing.

Clearly enough there is a tendency on the part of Mr. Mills and a few of his friends to regard his personal ambition as of more importance than the democratic party. Instead of falling cheerfully into line, as Mr. Crisp would have done in the event of his defeat, Mr. Mills appears to be engaged in the beautiful business of bushwhacking. We believe that Speaker Crisp's action in regard to the ways and means committee is endorsed by the great conservative and patriotic influences which give vitality and strength to the democratic organization.

A Timely Suggestion.
 The convention of the Southern Interstate Immigration Bureau meets at San Antonio in January, and will decide upon the location of a permanent headquarters for the bureau. Hon. John T. Patrick and Dr. G. W. Blackburn, of North Carolina, have been selected as a committee to report to the convention the most eligible point.

Why not select Atlanta? It is by all odds the most centrally located city in the territory in which the immigration bureau is interested, not to speak of its many other superior advantages over any other southern city.

Messrs. Patrick and Blackburn will pass through Atlanta before long on their way to San Antonio, and it will be well for them to stop over for a day or two to confer with our people, look at our exposition buildings, and otherwise satisfy themselves that Atlanta is the place for them.

This is a big opportunity for Atlanta, and it should take prompt advantage of it.

In a Corner.

We referred the other day to the fact that The Charleston News and Courier, which is all but a free trade organ, is having some trouble over the demand of the sea island cotton planters that their product shall be protected against the invasion of fine cotton from Egypt. The News and Courier would have been glad to theorize a little over this situation and go into an argument tending to show that all forms of protection are a sham and a delusion, but it was obvious to the editor that theories and arguments will not fit the case, and it was equally obvious that he could not ignore the demands of a considerable number of his most influential constituents.

The result is that the News and Courier is now involved in a controversy with the free trade New York Times, The Times maintaining that if "the misguided cotton growers" of South Carolina "could procure the imposition of a duty on foreign cotton they would suffer by means of their own folly, for the collection of such a duty would restrict the market at home, in which the demand has been trying to keep pace with the sea island crop."

All of which is the purest rot and nonsense when applied to the difficulties under which the sea island cotton planters are laboring. It is the typical free trade argument, and it is applied on every occasion and under all circumstances. The Charleston News and Courier has galloped along with this argument in its most affable manner, but now it is inclined to enter a protest. The facts are right under its nose, and it can't help but see them, so it says that the Times has not explained "how

a prohibiting duty on Egyptian and other fine foreign cottons would restrict the home market for the sea island staple." We may be very sure that The Times will not attempt to explain it except by repeating in a parrot-like way the formula of destructive mugwumpism. "It seems to us," says The News and Courier, "by the showing which The Times makes, that instead of restricting the market at home for sea island cotton, the duty on foreign cotton would prevent its importation and furnish the misguided cotton growers of the south with an increased demand for the products of their fields."

It is interesting to catch The News and Courier in this sort of a corner. It ought to be the means of giving our esteemed contemporary a wholesome object lesson, and of convincing it that a cut and dried theory cannot be made to fit all the facts of life and trade. It ought to convince The News and Courier that there is more in the democratic idea of tariff reform for the relief of the people than there is in the free trade views of the mugwumps.

Let It Be Everybody's Christmas.
 It is a happy suggestion made by an Atlantan that no child, white or black in this city shall be allowed to go through Christmas without a gracious reminder of the day. The idea and the plan for executing it were suggested by a business man, a typical citizen in this busy city, made up of people who, though carrying their full share of the cares of life, are not too much burdened to stop and do a good deed when a golden opportunity like this is offered.

Christmas comes but once a year—and with it comes and goes the glorious opportunity for spreading happiness everywhere.

The idea grew yesterday with the spontaneity of a kindling spark, finding a congenial place in the heart of every man upon whose attention it alighted. It is one of the felicitous paradoxes of human nature that it gives most when it has least to give; and it is a curious fact that such spontaneous efforts as this for the happiness of others are oftenest seen in what are called hard times. Hard would be the times if no kindling heart would be moved with good will for the cheerless, and who can call it hard times when humanity thus luxuriates in good deeds! For in these at least the pleasure of life is found.

Mr. Hampton's suggestion of a simple and effective organization to carry good cheer to those who would otherwise be cheerless, is just such an one as the people of Atlanta delight to carry out.

What especially commends this idea is that in it the quality of good will is not strained. It is to reach all the children of Atlanta, white and black, who would not otherwise be remembered. Committees of representative men will see that the good work is carried out in the right spirit, and everybody will take a hand. This is going to be everybody's Christmas.

There is one amendment which THE CONSTITUTION would like to make to this suggestion. It is an extra stocking. Let there be one at every fireside in Atlanta when stockings are hung up on Christmas eve; and let the children in the midst of their hilarious pleasure, learn to remember those who have no stockings to hang up. Let them gather about and fill the stranger's stocking with toys and tid bits taken from their own treasures of good things; and let the old folks be sure to give the little folks enough to spare something. Without some such provision as this you will deny your children a share in the chief happiness of this happy time; for with young as well as old, "it is more blessed to give than to receive."

Now let the good things begin to roll in on the committee. There is not time for them to solicit contributions, and this Christmas offering will come from cheerful, voluntary givers.

Ten thousand Christmas presents for the cheerless and unfortunate! Let not one child be overlooked.

An Unpleasant Story.
 Dr. Charcot, a famous scientist in Paris, makes no secret of his belief that all men of talent are insane.

In a recent interview the doctor said: All men of letters, poets and musicians have, in my opinion, a life loose, more or less. What astonishes me is that some of them seem still sane; but, mark my words, their turn will come. Just look here at this little English work which I have read lately; it is called "Insanity and Genius" and is almost unknown and unheard of. I picked it up by accident.

It points out that all men of talent are mad because of insomnia and the undue pressure on the brain power, citing Shakespeare, Byron, Victor Hugo and Goethe, all, crazy. So you see it is useless to contend for an opinion, because there can be no two opinions on the subject.

It is very likely that Dr. Charcot has been misquoted. His allusion to the English work on "Insanity and Genius" would indicate that he does not brand men of talent as lunatics, but only men of genius, which is a different thing.

Still, even with this suggested revision of the Frenchman's theory, its soundness will be disputed by many. Are we to be forced to the conclusion that sanity is confined to the dull, monotonous, conventional people who live and work like machines, while the original and daring pioneers of thought and action are a parcel of Bedlamites? This won't do, Dr. Charcot.

The Keeping of Court Records.
 In our editorial in Sunday's paper about lost papers in the clerk's office, we did not intend to reflect on the present clerk, Mr. Henry Tanner, who is one of the best clerks Fulton county ever had, nor on Judge Strong, who was clerk when the county records were stolen. We do not believe either of these men were at all to blame for the loss of books and papers.

It is the system, and more especially the custom, that renders such disappearances possible, at which we complain.

While it is true the court records are public property, many of these papers are more valuable than money. That the loss of the papers referred to and the books of record was the result of downright rascality there

is no doubt, but the clerks were not and should not be held responsible for it—we do not believe that they were even unnecessarily careless in the matter.

The county commissioners should at once offer a large reward for the arrest and conviction of the parties who stole the papers recently, and it should be followed up with the utmost vigor, so as to be a warning to others. And again, a rule of law should be strictly enforced, as to all parties, that official papers are not to leave the courthouse unless properly vouchered for.

The millennium is too far off to dispose of locks and keys as relics of barbarism, and we are forced to submit to them at least for a while longer.

Hard on the Husband.

In Chicago, the other day, Mr. P. F. Harding, a portrait painter, was arrested and indicted in the federal court for sending a postal card inquiry through the mails to the Louisiana Lottery Company.

When the case was tried Harding pleaded guilty. The judge imposed a fine of \$50. Then the defendant lost his temper. He informed the court that his wife had written the postal card, and rather than have her prosecuted, he had assumed the guilt, but under the circumstances he felt that it was an outrage to make him pay a fine.

This explanation interested the judge very much. He smiled approvingly, paid a high tribute to Mr. Harding's manliness, and wound up by saying that if the lady had been indicted he would not have fined her, but as he had a man to deal with he would make him pay the \$50.

The artist paid the money, and left the courtroom in a bewildered state of mind. If the judge was willing to let the guilty person off, why should the innocent party be punished, especially when the court commended his conduct? It is a queer case.

THE DEMOCRATS who were of the opinion that the party would be destroyed if Mills was not made speaker, seem to think that the collapse could only have been postponed by making Mr. Mills chairman of the ways and means committee. They will change their views without any trouble.

EVERY DAY some prominent man is compelled to learn the old lesson that the party is bigger than any individual.

IT SEEMS hard to convince some editors that there have been defeated candidates before Mr. Mills.

IF WE GET UP A WAR with Chile while Steve Elkins is secretary of war, the slaughter will probably be terrific.

SPEAKER CRISP'S new gavel is of Georgia hard pine. If he should accidentally hit a fractious republican over the head with it, we believe the gavel would still retain its shape.

WHILE DENOUNCING democratic gerrymanders, Mr. Harrison should have put in a good word for the republican variety.

MR. BLAINE is a candidate in name only. Under his mantle is Mr. Harrison ready to grab the place.

EDITORIAL COMMENT.

IN HER OLD AGE Mrs. E. D. N. Southworth has undertaken to write "A Child's Life of Our Savior." The old lady will also give parlor readings from her novels in Washington.

A BRANCH of the Theosophical Society is to be established in Nashville. The American says: "The objects of the society are: 1. To form the nucleus of a universal brotherhood of humanity, without distinction of race, creed, sex, color, caste, or language. 2. To promote the study of Aryan and other eastern literatures, religions, philosophies and sciences, and to demonstrate its importance. 3. To investigate unexplained laws of nature and the psychic powers latent in man. 4. Of these, acceptance of the first only is obligatory. Many members of the society study theosophy, and many accept its teachings, but neither the study nor the acceptance is enforced on any. Each is left free to work out his own line of thought and to reach his own conclusions in his own way. The society has no religion of its own, and takes in persons of all religions and every race, creed, and color, and among them we find Edison, Crookes, Wallace, Camille Flammarion, Lord Lindsay, Baron de Potet, Lane Fox, Mrs. Annie Besant, and scores of men and women of similar intellectual caliber, but each with his own pastime and consuming ambition—that of learning what man is, what nature is, and to win happiness for themselves in striving to benefit humanity."

THE CHICAGO PRESS CLUB will make a systematic study of the Bible as a model of good English. Many of the best writers have picked up their vocabulary and their style from the Bible.

A GEORGIA MIXTURE.

Christmas in Billville.
 Christmas in Billville—we've havin' lots o' fun;

Light-wood knots—a-bazin' an' whisky on the table;

Everybody shoutin'—happy on the way;

Reg'lar old camp meetin' times—fifty fights a day!

Mayor—he's done got blowed up—gone clean out o' sight;

Lightin' 'lectric cars on a keg o' dynamite;

Marshall's got runatics—most too full too jerk out;

Preacher's tarred an' feathered and a runnin' of a circus!

Not a man's been lynched this week; ain't no rope on the gallows;

Band commissioned the Methodists an' pulled their steeple down;

Methodists as mad as Cain—made a turn about;

Prayed for forty days o' rain an' drowned the crops;

Tell you what! she's boom'n', like a bob-tail fish;

Ain't no flies on Billville when you see her on the rush;

Clear the track, an' give her slack, an' let her blow away;

Red hot an' still a-heatin'. Hurrah for Christmas Day!

A GOOD PLACE TO RISE.
 Father—And you think the business is a good one for a boy who wants to rise in the world?

Editor—No. Many a man has risen from the hard press to the roof and set a creditor with a shotgun at defiance.

The Christmas edition of The Griffin Daily News is highly creditable. It is a seven-column, eight-page paper—the largest ever issued in Griffin.

AR ARRESTED ON THE SPOT.
 Officer Boy—Yes, sir—out of everything. There ain't been a cent around here since the war.

"Christmas bells are beautiful enough," said Brown, "but it costs like bells to ring them."

RAILROAD NEWS.

The Agents' Meeting Was a Disappointment.

THEY ARE TO GO TO WORK AGAIN.

All the Richmond and Danville's Discharged Hands Are to Be Taken Back in a Few Weeks.

A meeting of the railroad agents of Georgia was called for yesterday afternoon at the Chamber of Commerce.

Grand Secretary Wright, of Chicago, was expected, and he started to come, but was called back by important business.

Only a few agents came to Atlanta, and as the association's grand secretary was not present, no meeting was held. The men who were here did get together and have an informal talk. This Georgia division was organized last spring, and is not a year old yet. At the first meeting in Macon the attendance was large, and the membership now amounts to something like one hundred and fifty.

There are 600 railroad agents in Georgia. These men feel the need of a strong organization. They are ground by their companies on one side and by the public on the other. The agent is in direct contact with the patrons of the road, and has to take the complaints. If a wrong delivery is made he is held responsible. If the wrong charge has been made at the billing point it is his loss if he does not discover it. He catches it on every side.

Georgia's agents want to be in a position to exert some influence before the next general assembly. Another object of theirs is to band themselves and get out of the power of the surety companies.

The agents of the United States hold their annual meeting in Florida early in the coming year. Some of the Georgia agents are going to the convention to invite it to be held in Atlanta next year. It is a very large one and would be well worth bringing here.

Georgia's railroad agents are urged to take an active interest in the division in this state.

GOING BACK TO WORK.

By February 1st the Richmond and Danville's Discharged Mechanics Will Return. Here is good news.

By February 1st all the men laid off last week by the Richmond and Danville will be taken back.

So says high authority. The official who gave the information yesterday believes that there is hardly a doubt as to it. The truth is, the Richmond and Danville system, main line, leased lines and all, have to retrench severely this month. No secret is made of it, and these wholesale discharges were simply a ground-work case. It is said that General Manager Green fought for his men to the last ditch, and argued and argued for keeping them. But, up in New York, it was declared absolutely necessary to cut down the December and January pay bills, and there was nothing to do but to let the men go.

There seems to be a prospect of getting out of the financial woods next month, and when that day comes there will be rejoicing in all the Richmond Terminal properties.

The Richmond and Danville Firemen. The matter of increased pay which the Richmond and Danville's firemen are figuring on with General Manager Green and Assistant General Manager Thompson may go over until after the holidays. An increase has been offered to the Georgia Pacific firemen, but the men on all the other lines want a raise, too.

So they have telegraphed J. J. Hannahan, who is assisting Chief Sarzent.

Griffin's Grievance.

It is a crying shame that the railroad authorities do not provide some kind of accommodations for the traveling public in the way of lights at the depot. For trains that start early in the morning, and do not even have the light of an old oil lamp to guide the patrons of the road through the mud and slush. A speedy remedy to this inconvenience is demanded by the people traveling by public rail, and must be remedied at once.—Griffin News.

The Scrap Heap.

General Manager C. H. Hudson, General Passenger Agent B. W. Wren, and Chief Engineer D. W. Lunn, of the East Tennessee, spent yesterday in the city. They have been on a trip of inspection along the southern end of the system, and will leave tonight.

The East Tennessee's afternoon train for Macon leaves the union depot at 3:45 o'clock under the new schedule.

The Georgia Southern and Florida wants the old passenger rates restored—that is 3 cents a mile. The receipts from passenger service since the reduced rates were tried show a decrease of 8 per cent compared with the corresponding period of a year ago. This is in part due, of course, to the boycott put on by the other roads.

Unless some conciliating is done during the summer the next legislature will jump on the railroads just like the last two assemblies did. There are threats already and from sources where before the railroads had friends.

A Georgia shipper whose freight bills run more than \$125,000 a year is sore on one of the railroads and vows that he will not give it a cent's worth of his business if he can route it any other way.

The negroes of Louisville are exercised over the recommendation of Kentucky's railroad commission that the Louisville and Nashville be divided into two companies, one to be provided for the blacks. At a meeting of colored ministers a few nights ago, a resolution was adopted asking the legislature to let the subject be referred to a committee.

E. P. Lord, assistant engineer of motive power on the Pittsburg, Fort Wayne and Chicago railway, has accepted the position of superintendent of motive power on the Big Four, and will begin his new duties January 1st.

Nearly every freight train on the Washington division is to be run sections, so heavy is the traffic at present.

The Pennsylvania company has begun its work on the Indianapolis division. The engineers are preparing for the section of double track to be put down on the east end.

J. M. Turner, of the Illinois Central, is to succeed Superintendent Agnew, of the South Carolina railway, reports says.

W. B. Buskirk, city passenger agent of the Pennsylvania lines at Cincinnati, will succeed D. J. Roberts as assistant general passenger agent of the line, Mr. Roberts having succeeded Mr. Kinserson as general passenger agent.

John W. Mass, for twenty years division passenger agent of the Louisville and Nashville, is to retire January 1st, The Courier Journal says.

Cattle kings will have to pay fare on the western roads after January 1st. A rule has been adopted setting down free transportation to the number of men actually needed to care for live stock in transit. Heretofore the live shippers have had passes on all the western roads.

Legislating Against Ticket Scalpers. COLUMBIA, S. C., December 20.—[Special.]—A bill is pending in the legislature, the object of which is to completely break up the business of ticket scalping in South Carolina. It provides that when any round-trip ticket is sold by any railroad company it shall be the duty of the company to issue a receipt for the ticket, and by allowing to the legal holder the difference between the cost and price of a one-way ticket between the stations for which the round-trip ticket was sold. When any way or regular ticket is sold by any railroad company, and when unused by the purchaser thereof, it shall be the duty of the railroad company selling the ticket to redeem it at the price paid for it. It is declared unlawful

for any person to sell or deal in tickets issued by any railroad company unless he is a duly authorized agent of the railroad, and that the company whose agent he is shall be responsible for his acts. Violations of the law are made a misdemeanor. It is understood that the bill emanates from the Richmond and Danville. It is before the joint railroad committees of the legislature, and is vigorously opposed by the American Ticket Brokers association, which has employed able counsel to argue against it before the committees. The railroads have a strong lobby at work pushing the measure, and it is generally believed that the committees will report it favorably to both houses.

Freight Trains Will Stop

Running on the Central Road for Several Days, as Business Is Light.

MACON, Ga., December 21.—[Special.]—An order has been issued to employees of the Central road announcing the discontinuance of all freight trains for several days. The following is the circular issued from the office of Superintendent Curran, of the Southwestern railway:

SOUTHWESTERN DIVISION, OFFICE OF SUPERINTENDENT, MACON, Ga., December 15, 1891.—All freight trains on this division will be annulled from 6 o'clock p. m. Thursday, December 24th, until 6 p. m. Sunday, December 27th, and from 6 p. m. Thursday, December 31st, until 6 p. m. Sunday, January 3d, 1892.

The shops of this division will be closed from 6 p. m. December 23d until Monday morning, January 4, 1892.

All freight stations will be closed on Christmas and New Year's days.

Agents will not receive any perishable freight on Thursday, Friday and Saturday of Christmas and New Year's weeks.

Passenger stations and ticket offices will be kept open on above dates as usual.

D. D. CURRAN, Sup't.
 Approved: V. E. McBRIDE, Gen'l Supt.

The Close-Down in Savannah.

SAVANNAH, Ga., December 21.—[Special.]—The Central railroad shops are to close down for ten days during the holiday season. The men will stop work on Thursday, December 24th, and not return until Monday, January 4th.

This makes them lose their pay for a week and a half. There are now over two hundred men at the shops. Of these some will have to be kept at work to look after the engines. They will be few, though, and it may be roughly stated that two hundred will lose their time and money.

The men will be closed down in all departments for three or four days, but the men have never been given the doubtful pleasure of so long a vacation as is to be given them this year.

The railroad will effect a present saving by the shutting down of about four thousand dollars.

ETCHED AND SKETCHED.

Another social club will be organized soon after the holidays, and it will start off with a dash, for the prospects are that the membership will be over one hundred at the beginning.

The movement started in the Kiser building, where there are 250 men who are strangers in Atlanta.

We have no place to go at nights except the Young Men's Christian Association, and all our men do not want to go there every night. We can have pleasant clubrooms of our own, with billiard and pool tables and books and papers.

It is our intention to have a literary and dramatic feature. You would be surprised at the amount of talent among our men. We can cast any play from "London Assurance" to "Hamlet" except the female parts—right here in this building.

We are thinking of taking rooms in the old capital building, and in addition to the club will have all railroad men, and will not be confined to Richmond and Danville men at all. There are hundreds of us here in Atlanta working in the same business, and it will be a good thing for us to know each other. Now and then the dramatic end of the club can give a free entertainment for the members and their friends, and should be popular to the club.

Hines, Shubrick & Felder is the name of a new law firm composed of well-known attorneys. Judge Hines and Colonel T. B. Felder have been associated for some time in the practice of law and the firm is well known to the public.

The building at present has four stories, and with the addition will be quite an imposing-looking building. It will have an elevator put in of the most improved pattern, besides having other improvements for convenience and appearance that will make it a model building.

The work will begin quite soon and will be completed within six weeks after starting.

LETTERS FROM THE PEOPLE.

The fact that pickets of the opposing armies during the war had frequent friendly intercourse was an open secret at the time, though in direct opposition to army orders; and since the war there have been many stories written of the social mingling of those who at any moment might be thrown by a skirmish into mortal combat.

The following letter from an Indiana veteran is an amusing instance of this exchange of courtesies between the pickets of the two armies. After thirty years he is anxious to hear from the man whom he met and tarred with while on picket duty.

"HARRISVILLE, Ind., December 21, 1891.—Editor Constitution. Sir: I have a finger in your paper that I read from R. S. Roberts, in 1862, when on picket in front of Fredericksburg, Va. I traded him a pocket knife, and he traded me a dozen Ipecacuanha pills. I never saw him again, but I have a hunch that he is still alive. I would like to hear his whereabouts. We were both on picket, and had quite a chat about my war and other things. We promised each other, if we were ever captured, and fell into each other's hands, that we would write each other as best we could. I know anything of him, please let me hear, and I will correspond with him, and be much obliged to you. I belonged to Company B, Seventh Indiana volunteer infantry, and was with Burnside when he stuck in the mud. All old soldiers remember that. Yours, A. GRIFIN."

Dr. Keeley and His Remedy.

EDITOR CONSTITUTION.—I notice in your Sunday's issue an article on the use of the bichloride of gold by Dr. Keeley in treatment for whisky and wine habit, in which it is claimed that he discovered the bichloride of gold some ten years ago. I do not know who wrote the article referred to and mean no offense when I state that he is altogether mistaken.

The bichloride of gold, or, more properly speaking, the double chloride of gold, has been known to the profession for many years, and Dr. Keeley, so far as I know, has never claimed to have discovered it. From his published writings and what he has told me in personal interviews he claims to have elaborated a means of administering it that can be given without danger. This has been done by combining it with other remedies by a secret process which he has not yet divulged to the world, and for which he has recently been so much censured in certain quarters.

Physician in Charge Keeley Institute, Atlanta, December 21, 1891.

BOWDEN LITHIA WATER

Testimony of Reputable Physicians!

SUPERIOR TO THE BUFFALO LITHIA.

DR. KENT B. WAITE, M. D., Professor of Anatomy. Cleveland Medical College, Cleveland, O., Says:

"I have used BOWDEN LITHIA WATER with marked success in three cases of LITHIASIS, with a CURE IN ALL THE CASES. The case in which my confidant, Dr. True, recommended it to his patient, he reports that the man is better than he has been for years, and will continue the use of the water."

"I BELIEVE IT TO BE SUPERIOR TO THE BUFFALO LITHIA, WHICH I FORMERLY USED EXTENSIVELY."

DR. N. G. SMITH, Professor Principles and Practice of Medicine, Indiana College of Medicine and Surgery:

"The BOWDEN LITHIA WATER is all you claim for it. I am satisfied that it is SUPERIOR TO ANY WATER OF ITS CLASS, and I shall do all that I can to introduce it in Indiana."

WHEN OTHERS FAIL.

DR. W. O. GILSON, Erie, Pa., says:

"I have given the BOWDEN LITHIA WATER a thorough personal test for GRAVEL, and after having tried several different waters—Buffalo Lithia among the rest—do not hesitate in saying that I received more benefit from the BOWDEN LITHIA than from all the others used. In regard to the Buffalo, which I used before using BOWDEN LITHIA, the results were negative."

ITS EQUAL DOES NOT EXIST.

DR. W. H. WHITEHEAD, Report of Case of Calculi, Atlanta, Ga., says:

"In my opinion no more valuable medium exists, for the elimination from Kidneys and Bladder of RENAL and URIC ACID CALCULI, than BOWDEN LITHIA WATER. Some three years since Judge B. was relieved of OVER THREE OUNCES OF CALCULI solely by the use of this water, and his recovery from a threatened fatal attack was due solely to its use."

"Its solvent properties have been confirmed in many other marked cases, and THERE DOES NOT EXIST ITS EQUAL IN THIS RESPECT IN THE KNOWN WORLD, so far as the attention of the medical profession has been drawn to this class of remedial agents."

THE BEST AND MOST USEFUL LITHIA!

"I believe you are fully entitled to Goode's offer of \$5,000. Certainly I CAN SPEAK FROM EXPERIENCE, having used the 'Buffalo' Lithia first WITH NO RESULT AT ALL. Then I sent for BOWDEN LITHIA, which brought me to my feet again, and to it I owe my good health."

"I want to prescribe the BEST AND MOST USEFUL Lithia Water, AND THAT IS THE BOWDEN LITHIA WATER."

DOES THE PUBLIC ASK FURTHER PROOF?

DR. GEORGE ROSS, Vice President National Association of Railway Surgeons, Surgeon-in-Chief Richmond and Danville Railway System, Richmond, Va., says:

"I have been prescribing the BOWDEN LITHIA WATER, and believe it to be SECOND TO NONE ON THE MARKET IN EFFICIENCY."

EISEMAN BROS.

WATCHING THE WEATHER.

Those moderate-priced, fine Overcoats again. Of course, there's no bourse or exchange, where in the open fairness of comparison, there could be any judgment got on the superiority of Overcoats over Overcoats. Fugitive recollections must serve customers from store to store.

There is a sort of long-run justice, however, that does get done on Overcoats as truly as on reputations. That justice has made and makes this store today the Overcoat store of the city, not only for \$75 Overcoats, as everybody can see it does. Even in a more generous measure it makes this the store for selling \$12 Overcoats, and \$15, \$18, \$20 and \$25 Overcoats. Very justly.

For the making of an Overcoat consists of more than making it 35 or 42 or 48-inch breast measure. It consists of more than stout sewing or strong and even fine cloth. An Overcoat ought to be as dressy a garment as a man wears. We make ours so. We give them the fittingness, which is more than being right size, more than style, than stuff. We sum it up—adaptability.

There are Kerseys at \$15, Meltons at \$18, Lambs' Wool at \$20. Needn't say \$30 for silk-lined. We have silk-lined at \$15.

KING COTTON'S COMING

The Augusta Carnival a Grand Affair.

The Sights Described.

A TALK WITH MR. JOE WHITE.

His Majesty Will Enter Augusta on Tues-
day, January 20th, and Reign Su-
preme Until Midnight of the 28th.

The Augusta carnival, on the occasion of
the third annual entrance of King Cotton into
that city, will begin on Tuesday, the 26th of
January, and last until the night of the 28th.
This event is looked forward to for many
months, and the three days of the carnival are
given up to festivities of a varied and interest-
ing character.

Mr. Joe W. White, traveling passenger
agent of the Georgia railroad, was in the city
yesterday, and gave an interesting account of
the coming carnival.

"King Cotton comes in on the 26th of Jan-
uary at 1 o'clock p. m., accompanied by 150 or
200 knights," said Mr. White, who appears to
enjoy the full confidence of his majesty.
"The mayor delivers to him the keys of the
city with due form and ceremony. His
majesty then takes charge of Augusta for three
days, and immediately issues a proclamation
enjoining upon his loyal subjects a proper
celebration of his coming by appropriate festi-
vities. The sports begin the same evening.
There will be horse races and mule races right
on Broad street. The masqueraders will have
the freedom of the city for any kind of orderly
fantasies, the ladies will wear King Cotton's
colors, purple or orange, and the city will be
landscapely decorated.

"A large platform will be erected in the
street and amusements will be going on there
the whole time. Negotiations are pending
with a wire walker, who will traverse a wire
stretched between the Arlington and the Dyer
building—two of the largest structures in
the city. We will have a fox chase on the
night of the 26th and we already have 100
dogs for that purpose. There will also be the
climbing of a greasy pole, sack races and all
such barbaquies from 10 o'clock in the morn-
ing until midnight.

"On the night of the 27th the carnival pro-
cession comes, with twenty odd floats, making
a grand panoramic representation of a series
of connected historical events, each important
event in the epoch being represented by a
float artistically designed to picture the scene.
The procession will enter the city at McKin-
ney street and go down on the north side of
Broad to Elbert street, when it will turn and
countermarch on the south side of Broad, re-
turning thence to the den.

"On the last night, the 28th, King Cotton's
reception will be held and an elegant ball will
be given. It will be very select and well con-
ducted. A number of Atlanta ladies will re-
ceive invitations.

"From the afternoon of the 26th until mid-
night of the 28th, there will be one blaze of
light on Broad street, and fun and frolic with-
out cessation will fill the hours.

"The railroads will give a rate of 1 cent a
mile."

IS PREPARING AN ADDRESS.

Governor Northen to Issue One in the In-
terests of the World's Fair Movement.

Governor Northen is preparing an address
to the people of the state, which he will give
out for publication in a few days.

The address is for the purpose of stimulating
interest in the movement to raise a sufficient
sum of money for an exhibit of Georgia's re-
sources at the world's fair.

He was appointed to this duty by the execu-
tive committee appointed by the editors' con-
vention, at its meeting in Macon last Wednes-
day.

He is thoroughly enthusiastic over the
matter, and believe the necessary amount will
be raised easily.

"The movement," said he, in talking of the
matter yesterday, "is thoroughly organized,
and every Georgia editor is enlisted. I find
that the people are alive to the necessity of
such an exhibit wherever I go. The editors
are writing editorials on it, and when the or-
ganized press of Georgia cannot do a thing,
others stand a poor show of success."

He is at work on the address now, and will
have it ready in a few days.

The success which Hood's Sarsaparilla has
had in freeing childhood from afflictions caused
by impure blood, is really remarkable. Many
a mother has reason to be thankful for it.

The Bowden Lithia Water.

The Doremus Analysis.

Do the Company still swear

by it or repudiate it? It is

contradicted by Dr. Elwyn

Waller, Professor of Chem-

istry in the School of Mines,

and Chemist of the New

York Board of Health.

Dr. Waller, referring to the Bowden Lithia Spring,
says: "I did get a sample of water from the spring
through a friend, and have made examination of it for
one of my clients in New York. I did not let Mr.
Howland (the proprietor of the Bowden) know that I
had got the sample until afterwards. As to the sample,
my client here does not wish me to give away the
result, except that I may say that the sample did not
contain nearly as much as 4.47 grains lithium bicarb
per imperial gallon. Meantime, Mr. Howland has
written me suggesting that he has two springs, one of
which contains the 4.47 grains lithium bicarb per imper-
ial gallon, the other one about a quarter of that amount.
I wrote my friend at Atlanta about it. He assured me
that the sample he sent me was from the spring claimed
to contain the highest amount."

A Fair Proposition Repeated.

I WILL PAY \$500, TO BE DEPOSITED IN ADVANCE,
WITH ANY BANKER IN ATLANTA,

to have the Bowden Lithia Spring placed for twenty-
four hours under the control of two disinterested gen-
tlemen, one to be selected by the company, the other
by me, with the understanding they shall take from it
a sufficient quantity of water for the purpose, and send
it to Dr. Doremus for examination. If the examination
of the water sent confirms his first examination, then
the \$500 to be handed over to the Springs Company.
I, in any event, to pay Dr. Doremus for the examination.
